

M2M^{FD}

M2M^{FD}

Steel fire doorsets, approved by CERTIFIRE for up to 240 mins

revA

M2M^{FD} range offers an extensive series of fire rated doors, with varying levels of security, and a wide range of options available to suit application and customer requirements.

M2M^{FD} doorsets provide fire resistance of up to 240 minutes integrity, as defined in BS EN 1634-1: 2000 or BS 476: Part 22: 1987. These fire doors are approved by Warrington Certification under the CERTIFIRE scheme.

To achieve this fire rating, the doors were subjected to a furnace test, withstanding temperatures of up to 1100°C for a period in excess of four hours.

Recognised by regulatory authorities worldwide, the CERTIFIRE scheme assures performance, quality, reliability and traceability of fire protection products and systems.

Combining solutions for fire and security, the M2M^{FD} range includes doorsets with LPCB certification to LPS 1175 Security Rating 2 to 4. We also offer a variety of fire doors which are Secured by Design approved.

A selection of M2M^{+FD} doorsets have also been acoustic tested at Lorient to provide a rating of up to 35dB, depending on specification.

HARDWARE

A wide range of locking options and door furniture is available to suit application, including personnel, fire exit and substation configurations. M2M^{FD} doorsets are all fitted with approved door closers to comply with fire safety regulations.

SPECIALIST^{FD}

For requirements that fall outside of the standard M2M^{FD} specification, Specialist^{FD} doorsets are available.

FINISH

All of our fire doors are either primed or polyester powder coated in a wide range of high quality colours and finishes, as standard. Wood-grain effects, Extra Life powder coating warranty, and marine grade options are also available.

INSTALLATION

We offer a professional nationwide delivery and installation service, approved by CERTIFIRE. Please bear in mind that if fire doors are not properly installed, their fire resistance capabilities can be seriously compromised.

Peace of mind from the Door Specialists
