

Magroll™

**77mm Residential
Insulated Garage Doors**

Special Fixing Hangers provide a secure connection from Barrel to top Lath and keeps the door securely closed.

Full canopy cover available as an optional extra.

All doors come with an Emergency Winding Handle in the case of power failure.

Magroll Garage Doors offer an ideal solution to install in all circumstances, as a renovation or in a new building. Magroll Garage Doors are made of insulated aluminium profiles, which are characterized as light and strong.

For this reason, they meet a high level of safety, easy to operate and high level of insulation.

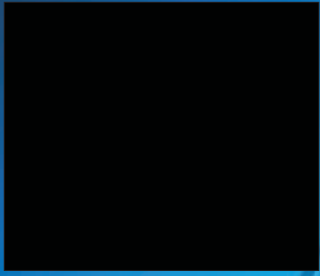

The door rolls up into a compact diameter where limited head room is available.

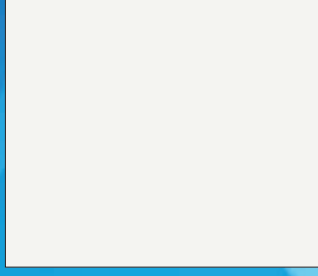

Medium density polyurethane foam filled laths ensure good insulation properties for your garage door.

2 layer high build paint ensures years of maintenance free use.
